	<b>Feedback: Day 3: Programming</b> Not available until 13 Jan at 0:00   3 Questions
	<b>Feedback: Overall</b> Not available until 11 Jan at 0:00   5 Questions

# Rationale Behind Surveys

- Participation in survey is completely optional!
- Course feedback survey
  - Once after every session to provide feedback to the next presenter
  - Overall survey at the end to understand student sentiment and room for improvement in next iteration
  - Totally anonymous

# Rationale Behind Surveys

- Participation in survey is completely optional!
- Self-directed learning attitudes survey
  - One of the bootcamp goals is to refresh students' knowledge, so that
    - Students are more confident to embark on their courses
    - Students are equipped with the prerequisite knowledge to perform self-directed learning to bridge any knowledge gaps, or read up beyond their course material
  - Survey attempts to capture students' self-directed learning attitudes pre and post bootcamp, to see if our goal is successful
  - Student names will be collected to allow us to analyze the change in scores before and after bootcamp
  - Data collected will only be strictly confidential (only for use by teaching team), and will not be used outside of this purpose

# Rewards for Survey Completion 😊

- Students who present survey completion page for the following
  - Overall bootcamp feedback survey (at the end of the bootcamp)
  - Pre course self directed learning attitude survey (before course starts)
  - Post course self-directed learning survey (at the end of the course)are entitled to receive a token of appreciation from the team 😊
- Please screenshot the completion page of the above surveys, and look for either me (De Zhang) or Jeanette after the bootcamp ends on Saturday to collect the reward
